Old Fall River Road Landfill  
Dartmouth, MA

**Managing  
Potential Traffic Impacts**

July 11, 2013

Mark Dakers, Acting Solid Waste Section Chief  
Massachusetts Department of Environmental Protection

# Key to Successful Traffic Management

- Evaluate Potential Routes
- Solicit Input from local officials and residents
- Pick the Best Traffic Route
- Implement Best Management Practices and Safeguards

# Traffic Management & Safeguards

- Traffic Management Controls
  - Set traffic route, hours, no trucks waiting on public roads
    - driver notification (no alternative route)
    - enforcement
- Noise, Dust, Vehicle Emission Controls
  - trucks covered,
  - wheel wash, street sweeping
  - no “jake braking”
  - vehicle emission controls, no idling

# Traffic Management & Safeguards continued

- Landfill Controls
  - Signs
  - Entrance Improvements
  - Room for multiple trucks on LF site
- Roadway Improvement
  - Signs (speed, crosswalks, bus stops)
  - Roadway Condition monitoring
  - line of site (brush & tree removal)

# Unlined Landfill Closure & Traffic Impacts

MassDEP Requirement: Landfill closure operations can not pose a danger to public health, safety or the environment

- Temporary traffic impacts
  - Traffic impacts can be managed
  - No post project traffic impacts
